

Technical Data Sheet

CB7093H

DESCRIPTION

CB7093H is jet black carbon black masterbatch for Polycarbonate application. Because a small amount of heat-resistant lubricants is used, the amount of gas generated is low, so it has good gloss and excellent dispersibility, so the quality of the surface of the molded product is excellent.

In addition, due to its high concentration, it exhibits better cost-effectiveness than any PC carrier masterbatch.

KEY FEATURES

Excellent impact strength
Excellent strength retention

High content of jet carbon black
Easy control processing

APPLICATIONS

Compound, Sheet Molding,

COMPATIBILITY

PC

Excellent

TYPICAL PROPERTIES

Base resin		PC	
Carbon black content		40%	
Carbon black diameter		18nm	
Appearance		Pellet, Powder	
Melt flow index	ASTM D1238	1.5 g/10min	250°C , 10.0kgs

☞ The data in the table above are typical test values intended as only guidance.

PACKAGING

PP Laminated Paper Bag - 25kg

Packing method requested by the clients may add an extra charge.

Muil Chemical Co., Ltd.

Headquater

237, Yeosusandan-ro, Yeosu-si, Jeollanam-do, Korea
Tel +82-61-690-9411 , Fax +82-61-685-4332

Korea, Gumi Factory

196-37, 3rd Gongdan-3rdro, Gumi-si, Gyeongsangbuk-do, Korea
Tel +82-54-716-1813 , Fax + 82-54-716-1815

China, Lianyungang Factory

Sankou Industrial Park, Sankou-zhen, Guannan-xian, Lianyungang-shi, Jiangsu Province, China
Tel +86-518-8322-3616 , Fax+86-518-8322-3616
